Expected number of people attending \_\_\_\_\_

*Groups are responsible for paying for the total number of people that attend with their group. If your total number is less than the expected number listed on your contract, then you will be responsible for the expected number minus a 10% shrinkage. For example, if your expected number is 90 and you only have 65 people attend, then you will still be responsible for the payment of 81 people. ( $90 \times 10\% = 9$ ) ( $90 - 9 = 81$ )*
